Mr. Jim Priest
Emissions Certification
Detroit Diesel Corporation
13400 W. Outer Drive
Speed Code A01
Detroit, MI 48239

Dear Mr. Priest:

The U.S. Environmental Protection Agency (EPA) has selected the engine families listed below for your heavy-duty on-highway in-use testing program.

LDDXH14.8EAD

KDDXH12.8FED

Family KDDXH12.8FED is included with the families selected in Byron Bunker's June 29, 2022 letter to you. Please procure the same vehicles you procured for testing the first time. If you cannot procure the same vehicles, please notify EPA as soon as possible.

Evaluate candidate vehicles according to the requirements in EPA "Dear Manufacturer" letter CISC-06-010 (HD) ("Manufacturer-Run, Heavy-Duty Diesel Engine In-Use Testing Program (May 5, 2006)), and test engines according to 40 CFR Part 86, Subpart T. Prepare your 1-Hz, engine map, and program information data according to the formats available at <https://www.epa.gov/vehicle-and-engine-certification/reporting-templates-and-guidance-manufacturer-run-heavy-duty-use> (Heavy-Duty Diesel, In Use Testing), the guidance specified in CISC-06-011 ("Manufacturer-Run, Heavy-Duty In-Use Testing Program: Reporting Guidance" (May 5, 2006)), and the December 2022 Data Requirements document. Submit a copy of the same data on electronic media to California Air Resources Board, Attn: Sharon C. Lemieux, P.E., Chief, In-Use Programs Branch, Emissions Certification and Compliance Division, 4001 Iowa Ave., Riverside, CA 92507. Data from all tests is due by December 31, 2024.

Please contact Mr. Lawrence Oeler (oeler.lawrence@epa.gov) of my staff if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Byron J. Bunker", is centered on the page.

Byron J. Bunker, Director
Compliance Division
